Understanding this Assessment Report

This is a report of a workplace assessment conducted by Fair Labor Association assessors following FLA's Sustainable Compliance methodology (SCI), which evaluates a facility's performance in upholding fair labor standards through effective management practices throughout the entire employment life cycle.

This report identifies violations and risks of noncompliance with the Fair Labor Association Workplace Code of Conduct in its assessment of the employment functions, and includes a description of the root causes of violations, recommendations for sustainable and immediate improvement, and the corrective action plan for each risk or violation as submitted by the company. This document is not a static report; rather, it reflects the most recent progress updates on remediation in the "Progress Update" section for each finding.

Summary of Code Violations

Companies that join the FLA agree to uphold the FLA Workplace Code of Conduct throughout their entire supply chain. The Code of Conduct is based on International Labour Organization (ILO) standards, and defines labor standards that aim to achieve decent and humane working conditions.

While it is important to note when violations of the FLA Workplace Code of Conduct occur, the purpose of these assessments is not simply to test compliance against a particular benchmark, but rather to develop an understanding of where and how improvements can be made to achieve sustainable compliance. Code of Conduct violations can be found throughout the course of an assessment of the employment and management functions, and are addressed in companies' action plans.

Findings and Action Plans

FINDING NO.1

IMMEDIATE ACTION REQUIRED

FINDING TYPE: Health & Safety

Finding Explanation

1. One out of the two forklifts in the factory did not have side mirrors or back lights. [HSE.1, HSE.14]
2. The one forklift driver in the factory did not have a driver's license. The factory did provide maintenance and training records for review. [ER.2, HSE.1, HSE.14]

Local Law or Code Requirement

Labor Code, Articles 441 and 448; FLA Workplace Code (Employment Relationship Benchmarks ER.2.1 and ER.2.1.1; Health, Safety and Environment Benchmarks HSE.1, HSE.14)

Recommendations for Immediate Action

1. Provide regular maintenance to forklifts, and ensure that they are safely driven. Keep records of maintenance provided to all machinery, especially fork lifting devices.
2. Ensure that all licenses and training are up-to-date in employee records.

COMPANY ACTION PLANS

1. "Immediate Action Required:

1. Provide regular maintenance to forklifts, and ensure that they are safely driven. Keep records of maintenance provided to all machinery, especially fork lifting devices.

COMPANY ACTION PLANS

1. "Sustainable Improvement Required:

1., 2.

The factory must identify the person who will conduct documented educational sessions (in, and with materials in,) the local language and any other applicable dialects and languages, with its workers, supervisors and managers about their legal rights and responsibilities, and its written personnel policies covering topics such as: a) wages; b) benefits; c) deductions; d) vacations; e) leave; f) regular hours; g) overtime hours; h) regular and overtime pay rates; i) discipline and termination; j) grievance procedures, k) harassment/abuse, l) the Under Armour Code of Conduct; m) the Fair Labor Association's Workplace Code of Conduct (<http://www.fairlabor.org/our-work/labor-standards> and related benchmarks (copies attached here); n) incentive schemes; o) promotion; p) job-re-assignment, and q) compliance with all applicable laws. Going forward, the factory also must address these topics with newly hired personnel in documented meetings. The meeting documentation should be filed in each worker's personnel file, and include: i) the date of the meeting; ii) a completed checklist of the topics covered; iii) the worker's typed/printed name and (factory identification number (FIN), if applicable) workers' signature, and iv) the typed/printed name (FIN, if applicable), the title and the signature of the factory representative that conducted the meeting. The factory must document its efforts (interactive training, with questions and answers about the topics/sections) to ensure that all: a) managers; b) supervisors and c) workers are knowledgeable (know the topics/sections/content) of both: i) the Under Armour Code of Conduct and ii) the Fair Labor Association's Workplace Code of Conduct (<http://www.fairlabor.org/our-work/labor-standards> and related benchmarks. Please send us supporting documentation for the ongoing training, such as a schedule for training, attendance sheets, and photos.

3., 4.

The factory must identify the top manager and teams who will

a. Develop and review (annually) policies and procedures for Personnel Development; including performance reviews for all workers (direct/indirect) that i) outline review steps and process, ii) demonstrate linkages to job grading, iii) prohibit discrimination, iv) are provided in writing and seek feedback and agreement/disagreement from employees in writing, v) and that follow all local legal requirements.

b. Facilitate communication with and active participation from workers on the development of the policies and procedures, continuous training to broaden worker skills, and develop a mechanism for workers to express their views and opinions on Personnel Development.

c. Facilitate ongoing evaluations and revisions of policies and procedures.

d. Provide continuous training for all workers, supervisors, and managerial staff on the new policies and procedures.

e. Include information on the new Personnel Development policies and procedures during worker orientation or induction process.

f. Designate staff with the responsibility for policy/procedure enforcement and implementation.

g. Provide workers with documents detailing the information that is covered during the orientation or induction process.

Please send us a copy of the new policies and procedures"

FINDING NO.3

IMMEDIATE ACTION REQUIRED

FINDING TYPE: Hours of Work

Finding Explanation

1. During documentation review and worker's interviews, it was noted that 8% of employees did not receive a rest day during a 7-day period from October 9-21, 2017. Also, 6.40% of workers were not provided a rest day during a 7-day period from March 5-17, 2018, and 5.2% of workers were not given a rest day within most recent paid period from June 15-July 7, 2018. [HOW.1.1, HOW.2]

2. During documentation review and workers interviews, it was noted that 20% of workers worked between 61.5 and 64.5 hours during the paid periods from October 9-21 2017, March 5-17, 2018, and June 15-July 7, 2018. [HOW.1.1, HOW.1.2, HOW.8.3]

3. Based on documentation review, the factory does not have an established time recording system showing the exact start time of a worker's shift. Based on the time records reviewed from August 2017-August 2018, 15 of 30 workers had an irregular start time. The work schedule start time must be established in written procedures with a length of time not exceeding 15 minutes in order to avoid inconsistencies based on the schedule of entry. Despite these inconsistencies, workers confirmed that they have been paid for all hours worked and confirmed that overtime is voluntary. [ER.23.5]

Local Law or Code Requirement

Haitian Labor Code (1984), article 107; FLA Workplace Code (Employment Relationship Benchmark ER.23.5; Hours of Work Benchmarks HOW.1.1, HOW.2, HOW.8.3)

Recommendations for Immediate Action

1. Ensure that all workers are provided with 24 consecutive hours of rest in a 7-day period of work. Continuously review production capacity to ensure that overtime is only needed in exceptional circumstances. Management, supervisors, and workers need to be retrained on FLA Workplace Working Hours Code and Benchmarks.

2. Ensure that workers do not work more than 60 hours in a week. Review production goals and clients' schedules so that the factory can comply with clients and not need to work more than 60 hours per week.

3. The factory should maintain accurate time records (start/out/break and leaves) for workers.

COMPANY ACTION PLANS

1. "Immediate Action Required:

1. Ensure that all workers are provided with 24 consecutive hours of rest in a 7-day period of work. Continuously review production capacity to ensure that overtime is only needed in exceptional circumstances. 3. The factory should maintain accurate time records (start/out/break and leaves) for workers."

Action plan status: Scheduled

2. 1. Going forward, the factory must permit workers to take off from work and rest on the paid leave days to which they are entitled. The factory should consider retroactively providing to all workers who worked on a past rest day with an alternative and actual rest day in the coming weeks/months and consistent with local regulations.

The factory must also identify the person that will ensure that:

a) The factory shall comply with all applicable laws, regulations and procedures governing the payment of premium rates for work on holidays, rest days, and overtime, including paying the legally defined premium rates for overtime and work on holidays or rest days;

b) Update/enhance compensation/benefits policy and procedure in line with local law requirements; including specific references about OT payment and their appropriate rate. Train supervisors and other managerial positions about the revised policy and procedures. Communicate through different means to workers in their local language and/or dialects about the revised policy and procedures.

Please send to us supporting documentation for each of the action items identified above.

2. The factory must identify the top and middle management personnel who will: 1) conduct documented and regular (daily, weekly and monthly) documented and regular analyses of the factory's hours of work with a view to progressively reducing excessive hours of work; 2) demonstrate and issue a written commitment to reduce overtime and 3) alter its personnel practices to make a documented effort to maintain a level of staffing that is reasonable in view of predictable or continuing fluctuations in business demand. Factory management is to: address its excessive hours issues:

- a) if established to be necessary, by jointly working with its customers on how to provide better order forecasts;
- b) Participating in workshops/engaging a consultancy for the factory on how to improve productivity/quality;
- c) if established to be necessary, by jointly working with its customers to develop clear guidelines on how to extend shipment deadlines in case of contingencies;
- d) the creation of steps that management must follow if overtime is inevitable (steps for how to communicate with Under Armour's Sourcing and Sustainability teams and other customers);
- e) clear guidelines on calculating and setting reasonable production targets that will not demand work beyond regular working hours or during breaks; and
- f) Developing clear guidelines on how and when the factory can use subcontractors (no Subcontractors may be used without meeting the requirements in the MAP's final row, below) and/or temporary workers to avoid excessive overtime.
- g) re-evaluate the production planning systems and controls in order to ensure that they match their historically demonstrated production capacity in order to operate within its working hour control policy.

Please send us a commitment letter, and supporting documentation for all points listed above.

3. 3. The facility must identify the manager/team who/that will: a. Develop and review (annually) policies are in place for managing all working hour, overtime, and leave records in both normal and exceptional circumstances that follow both the FLA and Under Armour Codes of Conduct, and all local legal requirements.; b. Keep accurate time records is maintained by employers, including overtime, breaks, and leave; c. Record all time worked by all workers, regardless of wage system, by using time cards or other mechanical or electronic recording systems;The facility does not maintain multiple time-keeping systems and/or records; d. Ensure that time records maintained are authentic and accurate; e. If not provided by law, ensure that employers provide protection to workers who allege existence of multiple time-keeping systems or falsification of work time records. This manager/team must also: i. Facilitate communication with and active participation from workers on the development of the policies and procedures, and develop a mechanism for workers to express

FINDING TYPE: Grievance System

Finding Explanation

During the factory tour, it was noted that all three of the suggestion boxes were not equipped with paper and pencil for workers to write their complaints/suggestions. [ER.25.3].

Local Law or Code Requirement

FLA Workplace Code (Employment Relationship Benchmarks ER.25.3

COMPANY ACTION PLANS

1. Immediate Action Required:

Factory shall identify the manager/team whom/that will be responsible for ensuring: a) a refresher training on grievance/disciplinary policy and procedures to all workers; b) review the policy and procedure periodically and/or as needed, and c) consult with Better Work Haiti program and seek assistance in enhancing or improving the factory's grievance systems. Please send to us supporting documentation.

2. "Sustainable Improvement Required:

The factory must identify the person who will develop and effectively implement comprehensive written grievance: a) policies and b) procedures. The grievance procedures must include: a) a means by which its workers can directly and confidentially report grievances to top management/human resource personnel (for example, by sending text messages to a dedicated H.R. Supervisor's telephone number; an email message to a dedicated H.R. Department email address; making telephone calls to a dedicated H.R. Department hotline or telephone number) without the knowledge of or involvement by supervisors and free from reprisal, retribution and retaliation, and b) a grievance register (see attached example), in substance reflecting the date and nature of the grievance and the action taken, among other things. Please also confirm that top management will regularly and confidentially meet with employees without supervisors being involved or present. FINDING NO.6

IMMEDIATE ACTION REQUIRED

FINDING TYPE: Compensation

Finding Explanation

1. Due to the lack of social security services and infrastructure in the region, the factory does not calculate and/or pay the % of Insurance Office of National Old-age Contribution (AKA: "ONA") required by law. The factory calculation of the National age-insurance is based on the minimum wage instead of the actual wages of each worker. The employer pays 4% of the workers' salaries to ONA instead of the legally required 6%. [ER.22.1].

2. Due to the lack of social security medical services and infrastructure in the region, the factory has enrolled workers in the social security scheme, Insurance Office of Work Accident, Sickness and Maternity (OFATMA); hence, the factory does not deduct or pay social security contributions, as legally required. Based on local law, the rate of quotation for maternity leave and health insurance is fixed at 6% of the base salary of the employees. The employer should pay 3% of this amount and the workers should pay 3%. Based on 2018 documentation reviewed, the rate of quotation for maternity leave and health insurance is fixed at 4% of the worker's salary and the employe pays the remaining 2%. [ER.22.1. C.1, C.10]

3. Based on the documentation review, the factory calculates the mandatory insurance provision (AKA: "OFATMA") based on the minimum wage, as some production workers earn above the minimum wage. [ER.22.1, C.1, C.10].

Local Law or Code Requirement

Labor Code, Chapter VI, Annex VIII, Articles 27, 32, and 200, Section D; Annex VII, Decree Jean Claude Duvalier Decreed Article 1, Section (D) ; FLA Workplace Code (Employment Relationship Benchmark ER.22.1; Compensation Benchmarks C.1 and C.10).

Recommendations for Immediate Action

1. Provide all workers with all of the social insurance benefits in accordance with law and engage with the ONA, relevant Haitian governmental institutions, and other related stakeholders such as the International Labor Organization's (ILO) Better Work Program to work toward potential solutions that address the lack of the National Age-Insurance coverage affecting many Haitian workers in the region.

2. Provide all workers with all of the social insurance benefits in accordance with law as well as work with OFATMA, relevant Haitian governmental institutions, and other related stakeholders such as the International Labor Organization's (ILO) Better Work Program in order to work toward potential solutions that address the lack of insurance coverage.

COMPANY ACTION PLANS

1. "Immediate Action Required:

1. 2. "Sustainable Improvement Required:

The factory must identify the manager/team who/that will:

- a) Provide all workers with all of the social insurance benefits to which they are entitled legally, in particular the social security medical service contribution;
- b) Ensure that the factory properly calculates its payments/remittances to the government using the appropriate wage category, if, and as legally, required;
- c) Maintain on file at the factory records of related payments to the appropriate authorities;
- d) Conduct documented educational meetings with workers about the insurance and the portability of related payments have been conducted.
- e) In collaboration with other businesses in the area, business associations, if any, NGOs, the factory is requested to formally engage with the local government/Social Security officials to request, in writing, their support and cooperation in making medical services/facilities available, nearby, for factory workers to use.

Please submit supportive documentation to us that establishes: I) the timetable according to which 100% of the workforce is covered by/enrolled in all insurance types and all related benefits will be provided to 100% of the workforce and II) related remittances by the factory and workers are correctly calculated and paid to the government by the factory.
